MEDICAL

Modern medicine is dependent on plastics. Its excellent properties make this material attractive and important for medical technology. The products of the GABRIEL-CHEMIE Group for this sector are of the very highest quality.

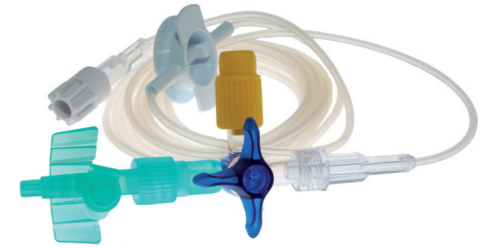

COMPETENCE IS OUR STRENGTH

The requirements for medical products concerning durability, sterilisability and insensitivity against chemical substances are extraordinary. The prerequisite is consistently good quality. We take this into account when selecting our raw materials.

APPLICATIONS

MEDICAL TECHNOLOGY

Low dosage, ease of use and high quality make our products stand out from the crowd.

INJECTION NEEDLES

Our standard range of colours in transparent and opaque form meets the international standard EN ISO 6009 which permits the rapid visual detection of needle diameters for subcutaneous injections. The needle wall thickness is easily recognisable by a special colour code.
